Back Stage

The event got a proper closure with a closing speech from Ms. Novita Rai. She shared her opinion that academics and non - academics are the lifeblood of our school. Extra and co-curricular activities provide variety to an otherwise dull and monotonous routine of academic life. These activities keep students alert, interested, occupied, active and provide for their growth; emotionally, mentally and physically. Ms. Rai shared her joy that the students, along with excelling in academics, are also participating enthusiastically in various co-scholastic activities as well, be it art, dance or music, and the event was the proof of that. She praised the students from grade I to III who demonstrated different forms of performing arts which showcased their talents and ability to coordinate and work in teams.

Strengths and areas for improvement

Strengths	Areas for improvement
The program was conducted on time and went smoothly without any hindrances.	Late arrival of some parents caused distraction.
The students performed their best in a very short period of time.	Arrangement of chairs and carpeting on the backstage would help the performing students as they were waiting barefoot.
All the members rehearsed and completed the assigned task properly.	Emcees and poets for the events should be dressed formally.
