

## Result Distribution |Grade 8 &10

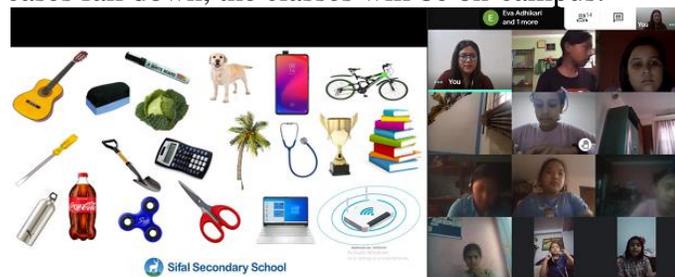

In the second week of Baishakh, 2078, Sifal School published the results of the Final Terminal Examination of the academic year 2077 for Grade 8 and 10. The result distribution was on-campus.

## School magazine-The Deerwalker | N8

The 8th issue of the magazine led by “Students of Sifal Secondary School” by Deerwalk education group was a perfect wrap for the academic year 2077. The magazine is student run and led magazine and is published quarterly by the 'The Deerwalker' Club. Our magazines include areas ranging from Creative writing, Science and Technology, Events and activities, Sanskrit, Reviews, and many more. The co-editor-in-chief, Kajal Bastakoti (Grade 12) welcomes the readers with a note, 'as said by Albert Einstein, "Education is not the learning of facts, but the training of the mind to think". The motto of our education group is to “Unleash one’s potential with exemplary learning community'.

## Study from Home

Sifal School commenced the 'Academic Year 2078' from Baishak 16. Amid the anticipation of the on-campus study, the COVID-19 pandemic has once again led the nation to lockdown. Hence the school started the 'Study from Home' program by running the effective online classes for all grades from the very day. The school is running four periods of the online class a day for each grade. Once the covid cases fall down, the classes will be on-campus.

## Article Writing

Sifal School always encourages creative writing and gives students a platform to show their writing skills be it Student's Corner or in Newspaper. Along with the new academic year, 10 articles from different school level are posted in the Student's Corner every day. Student's can write on any topic they want and send the articles to the teachers. The articles are then published on the online placeholders of the school. Enhancing the writing

skills of the students is one of the focuses of Sifal School.

## Read aloud - Podcast

In the lockdown period of 2077, the school had started an initiative – making read-aloud podcast videos which was a huge success and is continued for the academic year 2078 as well. Students from Lower School (Grade 1-3) read the storybooks and send the audio files. Digital Media Lab renders those audio files to make the podcast videos.
